Congressman Filner to Co-Chair Congressional Border Caucus

Washington, DC - Congressman Bob Filner has been selected to co-chair the Congressional Border Caucus.

"I'm honored that my colleagues selected me to serve as co-chair of the Congressional Border Caucus," said Congressman Filner. "As the Congressman with the entire California/ Mexico border in my district, I will use this post to push for funding for programs aimed at bolstering the economies on both sides of the border, keeping our borders safe and decreasing congestion at ports of entry."

The Congressional Border Caucus, which was founded in 2006, is a coalition of Members of Congress who are dedicated to addressing the issues of border communities and to educate other Members on border issues.
